- Ensuring compliance with relevant legislation and standards, recommendations, guidelines and codes of practice as required by clients
- Where applicable lead the planning and delivery of the Design Management procedure
- Provide expert advice to the Project Manager and the Project H&S Manager on the Safety by Design aspects of the design
- Ensure that the temporary works register is being maintained and reviewed by competent engineers
- Review and accept the design management plan and CDM Risk Register attend Design reviews and maintain the Design Review Register
- Ensure that design progress meetings are held Management of Quality Assurance and preparation of the Safety File

Requirements:

- Honors Degree level qualifications
- EUSR safety passport holder (or equivalent)
- Be fully conversant with the relevant industry design assurance process and drawing management
Aware of Accident, Incident and Near Miss Reporting and Investigation (COMPASS) and have an understanding of HS&E Management System and requirements
- Work on a number of major Water industry projects in one of the following roles:
 - ❖ Pipeline design role
 - ❖ Site based designer's representative
 - ❖ Design Coordinator for a Pipeline Contractor
- To be considered for the above opportunity you must be eligible to live and work in UK.
- M&E experience is advantageous
- Experience in role as a Temporary Works Coordinator is advantageous
