Founded in 1967, and operating in Ireland, United Kingdom, Poland, South Pacific and the Middle East, Roadbridge is a leader in Civil Engineering. Roadbridge has the experience, capability and a proven track record in delivering major projects across a range of sectors on time and on budget. Our core ethos is not just to meet client expectations, but to exceed them, making us the partner clients want to work with.

Job Summary

We are looking to appoint section engineer/sub agent for projects based in Scotland. The successful candidate will be enthusiastic, confident and motivated with good communication and mathematical skills and able to work independently as well as part of a team.

It is vital that they are able to demonstrate a pragmatic and proactive approach to problem-solving and an ability to liaise with site management and client's representatives as appropriate. They will be required to manage junior staff and site supervision work while keeping records of all site activities. The work will be a mix of field-based work as well as QA reporting and preparation of as built information.

The role includes:

- Maintenance of site records and diary
- Attend regular meetings with internal and external project stakeholders
- Compile quality control records
- Contribute to HSE management onsite
- Record and monitor site plant and personnel
- Analyse quantities and prepare 3D models for GPS controlled plant
- Ability to manage a team of surveyors
